January Clearances

"The Highest Quality at the Lowest Price"

This Has Always Been Our Principle—Evidenced Most Clearly Today When We

Sacrifice All Profits

Throughout this season—and throughout the past—our prices have been the lowest, considering the quality and exclusiveness of our stocks. For this reason the reductions have double significance. The motive behind them is our desire to co-operate with the public in the establishment of lower prices—and to stimulate buying so that labor will be kept at work.
